

Seed Envelope (Seed 1)

In this BLACK envelope, you will find one of the 5 Seeds, which constitute the first part of each Signing Key.

Items list:

- Seed 1 in 12 words on paper format
- Seed 1 in 12 words on metal format
- Seed 1 in QR code format

The 3 items represent the same information (Seed 1) in 3 different formats.

On the 12 words on paper format, you will find 2 additional pieces of information:

Fingerprint without Passphrase: Unique identifier associated to Seed 1, which allows you to verify you correctly entered the Seed 1 into the offline signing device

Fingerprint with Passphrase : Unique identifier associated to the combination of Seed 1 and the Passphrase (Signing Key 1) which allows you to verify you correctly entered the Passphrase on top of the Seed 1 into the offline signing device.

WARNING:

Whoever has access to the Seeds will have access to part of the Bitcoin vault. ALWAYS keep the Seeds highly-confidential. NEVER share the Seeds with anyone other than the owner or the heirs.

For this reason, the Seeds must NEVER be loaded/entered on any internet-connected device (computer or phone). They must ALWAYS remain disconnected and offline.

As a general rule, all handwritten information contained in this package is of the utmost sensitivity and must be kept strictly confidential.

Seed Envelope (Seed 2)

In this BLACK envelope, you will find one of the 5 Seeds, which constitute the first part of each Signing Key.

Items list:

- Seed 2 in 12 words on paper format
- Seed 2 in 12 words on metal format
- Seed 2 in QR code format

The 3 items represent the same information (Seed 2) in 3 different formats.

On the 12 words on paper format, you will find 2 additional pieces of information:

Fingerprint without Passphrase: Unique identifier associated to Seed 2, which allows you to verify you correctly entered the Seed 2 into the offline signing device

Fingerprint with Passphrase : Unique identifier associated to the combination of Seed 2 and the Passphrase (Signing Key 2) which allows you to verify you correctly entered the Passphrase on top of the Seed 2 into the offline signing device.

WARNING:

Whoever has access to the Seeds will have access to part of the Bitcoin vault. ALWAYS keep the Seeds highly-confidential. NEVER share the Seeds with anyone other than the owner or the heirs.

For this reason, the Seeds must NEVER be loaded/entered on any internet-connected device (computer or phone). They must ALWAYS remain disconnected and offline.

As a general rule, all handwritten information contained in this package is of the utmost sensitivity and must be kept strictly confidential.

Seed Envelope (Seed 3)

In this BLACK envelope, you will find one of the 5 Seeds, which constitute the first part of each Signing Key.

Items list:

- Seed 3 in 12 words on paper format
- Seed 3 in 12 words on metal format
- Seed 3 in QR code format

The 3 items represent the same information (Seed 3) in 3 different formats.

On the 12 words on paper format, you will find 2 additional pieces of information:

Fingerprint without Passphrase: Unique identifier associated to Seed 3, which allows you to verify you correctly entered the Seed 3 into the offline signing device

Fingerprint with Passphrase : Unique identifier associated to the combination of Seed 3 and the Passphrase (Signing Key 3) which allows you to verify you correctly entered the Passphrase on top of the Seed 3 into the offline signing device.

WARNING:

Whoever has access to the Seeds will have access to part of the Bitcoin vault. ALWAYS keep the Seeds highly-confidential. NEVER share the Seeds with anyone other than the owner or the heirs.

For this reason, the Seeds must NEVER be loaded/entered on any internet-connected device (computer or phone). They must ALWAYS remain disconnected and offline.

As a general rule, all handwritten information contained in this package is of the utmost sensitivity and must be kept strictly confidential.

Seed Envelope (Seed 4)

In this BLACK envelope, you will find one of the 5 Seeds, which constitute the first part of each Signing Key.

Items list:

- Seed 4 in 12 words on paper format
- Seed 4 in 12 words on metal format
- Seed 4 in QR code format

The 3 items represent the same information (Seed 4) in 3 different formats.

On the 12 words on paper format, you will find 2 additional pieces of information:

Fingerprint without Passphrase: Unique identifier associated to Seed 4, which allows you to verify you correctly entered the Seed 4 into the offline signing device

Fingerprint with Passphrase : Unique identifier associated to the combination of Seed 4 and the Passphrase (Signing Key 4) which allows you to verify you correctly entered the Passphrase on top of the Seed 4 into the offline signing device.

WARNING:

Whoever has access to the Seeds will have access to part of the Bitcoin vault. ALWAYS keep the Seeds highly-confidential. NEVER share the Seeds with anyone other than the owner or the heirs.

For this reason, the Seeds must NEVER be loaded/entered on any internet-connected device (computer or phone). They must ALWAYS remain disconnected and offline.

As a general rule, all handwritten information contained in this package is of the utmost sensitivity and must be kept strictly confidential.

Seed Envelope (Seed 5)

In this BLACK envelope, you will find one of the 5 Seeds, which constitute the first part of each Signing Key.

Items list:

- Seed 5 in 12 words on paper format
- Seed 5 in 12 words on metal format
